

# Wildlife Week 2020

ROAR AND REVIVE

**Wildlife Week is a weekly event celebrated annually in India. It is celebrated from the 2nd of October to the 8th of October. The main reason behind celebrating this day is to accelerate awareness of conservation of wildlife among the people by the central and state governments, environmentalists, activists, teachers, etc. India has a large repository of organisms of various species, so the conservation and nurturing of these natural resources are extremely important for us. This weekly event is celebrated every year with a different theme to work from different aspects of the same issue.**

# History

*The first proposal to celebrate National Wildlife Week was put in the year 1952. After considering this proposal, the first observation of Wildlife Week took place in 1954. Since then, this event is observed every year from 2 to 8 October in full swing for the protection and development of wildlife in India.*

*The National Board of Wildlife, the organization implementing National Wildlife Week, was established by the Indian government primarily for the conservation and nutrition of wildlife.*

“Art can speak more than an eloquent verbiage”

As a part of the celebration of wildlife , we were asked to  
Let our creativity flow free and express our views by giving life to  
A mere piece of white parchment , to narrate a story by the strokes of brushes  
And the vibrant colors .  
We painted what we truly felt for nature and how its complexity , simply inspired us.

*We thank Mr . NK Janoo, CCF and Mrs.Aditi, DFO for giving us*

*This once in a lifetime opportunity .*

*Mr . NK Janoo shared a piece of his extensive knowledge on*

*The subject by telling us about the majestic Black Buck And its habitat . He also gave insights about how the Color of the eyes of the cat family vary when subjected to light*

*Mrs . Aditi , Told us about the state of the art Hastinapur Wildlife Sanctuary and the extraordinary interpretation center*

*Which is a boon for biology students and inspired us to surely pay a visit!*

*Amidst the foliage , the iridescent greens , limpid pool  
Lives the precious wildlife of this great country .  
The wildlife week reminds us to celebrate and safeguard  
Our wildlife every year .  
Despite the ongoing pandemic , our government  
Spared no effort to enrich the youth's knowledge ubiquitously  
On the subject and create an atmosphere of curiosity to delve deeper  
And explore the extraordinary bond between humans and  
The animals of the wild .  
A myriad of activities , plethora of oppurtunities , to expand our horizons and  
Know more about our flora and fauna .  
We were given the opportunity to attend the webinar ,  
Hosted by the forest department , attended by students across the state and presided  
Over by none other than our honorable chief minister , Mr. Yogi Adityanath .  
His deep knowledge on the subject not only surprised us but also the well versed  
Officials attending .  
The perfect balance of eloquence and simplicity while flawlessly conversing in our mother tongue  
Left all of us in awe  
He quoted the example of Jatayu from The Ramayana to describe  
The age old bond between man and animal .*

*We are truly grateful to have been sent to live an unparalleled experience .  
We were left inspired to dig deeper and contribute in any way that we can to preserve this truly  
Beautiful extravaganza of nature for future genertations to cherish*

*I thank Sister Principal for this golden opportunity  
And Mrs.Ghuman for guiding us each step  
of the way and giving valuable advice on  
Each aspect , be it , the content of  
discussion or the presentation .*
