Study Material / Worksheets / Assignment

Class III

Assignment Date : 25/05/2020

To be Completed by : 31/05/2020

Guidelines : Complete the work given in different subjects according to the instructions given along with each subject. It has to be submitted in school once the school reopens

Subject : GENERAL SCIENCE

Note: Do the work given below in your Science notebook.

Lesson 3: (Birds)

To understand the concept better, click on the given link:

<https://youtu.be/GPPV10wDNHA>

Fill in the blanks:

1. A bird has a hard **beak** that helps it to catch, hold and eat food.
2. Birds that cannot fly are called **flightless** or running birds.
3. A **tailor bird** uses its beak like a needle to stitch leaves together to make its nest.
4. Birds make sounds to **communicate** with each other.
5. **Hummingbirds** are the smallest birds in the world.
6. A **woodpecker** has strong and pointed chisel shaped beak to make a hole in a tree trunk as its nest.
7. Flesh eating birds have sharp claws called **talons** to catch small animals.

Name two:

1. **Perching birds-** crows, pigeons
2. **Wading birds-** cranes, herons
3. **Flesh-eating birds-** eagles, owls
4. **Swimming birds-** ducks, swans

Answer the following questions:

1. How do birds fly?

A.1 The wings of birds are attached to their body with the help of strong muscles. Birds use these muscles to move their wings. The upward movement of wings is called upstroke and the downward movement of birds is called downstroke.

2. How does a penguin protect its eggs?

Sophia Girls' School
Meerut Cantt

Study Material / Worksheets / Assignment

A.2 A penguin lives in the icy regions where there are no plants. It collects and puts a few pebbles and stones together on ice-free ground to make a nest. This prevents the eggs from rolling away and also from ice.

3. How should we take care of our pets?

A.3 Some ways in which we should take care of our pets are:

- We should give them good food and clean water to drink.
- We should bathe them regularly.
- We should not cage them.
- We should take them to an animal doctor when they fall ill.

4. What are the three types of feathers in birds?

A.4 The three types of feathers in birds are:

- Down feathers**- These are small, fluffy feathers all over a bird's body to keep it warm.
- Contour feathers**- These feathers cover the whole body and give the bird its shape.
- Flight feathers**- These are long, flat feathers in the wings and tail that help a bird to fly.

SUBJECT: ENGLISH LANGUAGE

Note: Do the work given below in your English Language notebook.
